

Cardboard Spoon

100% cardboard - Zero plastic

100% natural 

SKY-LIGHT's Cardboard Spoon

- a unique design:

- **Foldable spoon** – unfolds to a longer spoon, which prevents consumers getting food on their fingers during use.
- **Smart lock** – keeps the spoon stable during use.
- **Great stability** – makes the spoon appropriate for both thin and thick fluid food products.
- **No taint** – the cardboard spoon does not give off any taint or odour to either the food product or the consumers taste experience.
- **Embossing and no sharp edges** – ensures a smooth and pleasant user experience.

Natural and recycled resources

- a sustainable choice:

- Spoon of 100% natural resources
- No plastic coating
- Sustainable packaging: Lid of up to 100% rPET
- Flowpack solution with paper- based wrapping
- 100% approved for food contact

Consumer tested:

"Pleasant design and great stability"

Suitable for:

- Dairy products such as yoghurt and skyr
- Protein pudding
- Rice desserts
- Porridge
